

PATENTED INNOVATION

RÉNOVATION RADICALE WITH NEO-SKIN

2nd M CEUTIC PATENT

Unique combination of 3 active ingredients specialised in skin renewal

- Buchu leaf extract
- Brown macroalgae - Fucus Spiralis
- Green microalgae - Tetraselmis Chui

Completed by renowned dermatological active ingredients

- Anti-blemish ingredients: Totarol and stabilised Omega 6
- Anti-irregularity ingredients: Bakuchiol and Hexylresorcinol

The exclusive and overall solution to actively fight against **physiological sebocyte malfunctioning**, guaranteeing good skin quality.

BUCHU LEAF EXTRACT

Sebogenesis regulator

By inhibition of sebocyte differentiation & maturation

- Inhibits the maturation and differentiation of stem cells into sebocytes
- Inhibits the maturation of differentiated sebocytes

Results

- Decreased lipid synthesis
- Decrease in the overall amount of sebum released

Origin:

Buchu is a medicinal plant from South Africa

BROWN MACROALGAE - FUCUS SPIRALIS GREEN MICROALGAE - TETRASELMIS CHUI

Sebum-regulating, soothing and antioxidant

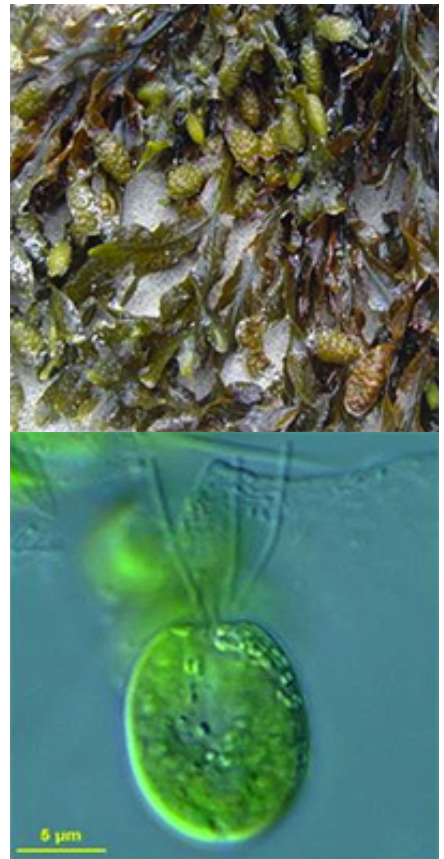

By regulating sebogenesis

By reducing the secretion of pro-inflammatory factors

- Inhibits the enzyme 5 α -reductase responsible for the stimulation of sebum secretion
- Decreases the expression of interleukin-8
- Antioxidant protection

Results

- Decreased sebum secretion
- Decreased inflammation

Origin:

Fucus Spiralis is an algae harvested in Brittany.

Tetraselmis Chui is a microalgae culture.

ANTI-BLEMISH INGREDIENTS

TOTAROL

Potent anti-microbial action:

Limits the multiplication of bacterial populations

Anti-lipid peroxidation action:

Limits oxidation of lipids of biological membranes

Origin:

Totara tree extract, a tree that is found mainly in New Zealand

STABILISED OMEGA 6

Restores a healthy composition of surface skin lipids through a contribution in linoleic acid:

- Correction of hyperkeratinisation
- Reduction of seborrhoea

Origin:

Extract from the plant world

ANTI-IRREGULARITY INGREDIENTS

BAKUCHIOL

High renewal activity through its retinol-mimetic power:

- Improves the texture, appearance and thickness of the skin
- Reduces blemishes

Origin:

Babchi seed extract, an ayurvedic herb used for skin diseases.

HEXYLRESORCINOL

Powerful activity on the homogeneity of skin tone

- Reduces scarring
- Prevents after-treatment marks

Origin:

Synthetic active ingredient
